

**UNITED STATES BANKRUPTCY COURT  
EASTERN DISTRICT OF VIRGINIA**

**ANNOUNCEMENT**

**COMING BANKRUPTCY NEXT GENERATION CASE  
MANAGEMENT/ELECTRONIC CASE FILES SYSTEM IMPLEMENTATION ON  
MARCH 21, 2022**

On March 21, 2022, the United States Bankruptcy Court for the Eastern District of Virginia will migrate its Case Management/Electronic Case Files System (CM/ECF) to the Next Generation of Bankruptcy CM/ECF (NextGen). Please click on the [Court's internet website's Bankruptcy NextGen CM/ECF web page](#) to access this *very important* information. Timely following the instructions set forth on that web page will enable external users with e-filing permission to continue e-filing in ECF with the Court on and after March 21, 2022. This migration will provide such external users with the benefit of new Central Sign-on functionality and the ability to maintain one account across all NextGen courts (appellate, district, and bankruptcy). These external users only would need to sign in once, using their one login name and password, to access any NextGen court in which they have e-filing permission. Each such external user must have an individual PACER Account, which will be that user's entry login point for both PACER and CM/ECF. Courts continue to be responsible for admitting attorneys and assigning e-filing permissions, and each court will continue to identify each user's appropriate access level.

William C. Redden  
Clerk of Court

Date: November 2, 2021
