

Previously each court defined local counties for display in case opening. Now counties for all states are in the database. When opening a case, the county list automatically displays all counties of the state entered in the state field. Users must select the county of the debtor's residence. If the debtor's county is outside the state, the counties for that state will display. The "Out of District" option is no longer available at case opening.

The screenshot shows a web form titled "Debtor Information" with a light pink background. The form contains several fields: "Office", "Address 1" (with value "100 Main Street"), "Address 2", "Address 3", "City" (with value "San Antonio"), "State" (with value "TX"), "Zip" (with value "78522"), "Country", and "Fax". A dropdown menu for "County" is open, displaying a list of Texas counties with their internal codes in parentheses. The list includes: ANDERSON-TX (48001), ANDREWS-TX (48003), ANGELINA-TX (48005), ARANSAS-TX (48007), ARCHER-TX (48009), ARMSTRONG-TX (48011), ATASCOSA-TX (48013), AUSTIN-TX (48015), BAILEY-TX (48017), BANDERA-TX (48019), BASTROP-TX (48021), BAYLOR-TX (48023), BEE-TX (48025), BELL-TX (48027), BEXAR-TX (48029), BLANCO-TX (48031), BORDEN-TX (48033), BOSQUE-TX (48035), BOWIE-TX (48037), BRAZORIA-TX (48039), BRAZOS-TX (48041), BREWSTER-TX (48043), BRISCOE-TX (48045), and BROOKS-TX (48047). Other fields include "Party text" and "Phone". There are "Alias..." and "Submit" buttons. A note at the bottom right says "ases and corporate parents or affiliates" and "ing the Submit button."

The county format has been changed to include the two-letter state abbreviation. The five digit number following the county name is an internal county number and not a zip code.
